KEVAL SOMNATH SUKASE

JAVA DEVELOPER | SPRING BOOT | MICROSERVICES | REACT

Pune, Maharashtra | kevalsukase1999@gmail.com | +91 9370548799

PROFESSIONAL SUMMARY

Java Developer with 3.5+ years of experience building and enhancing web applications using Core Java, Spring Boot, REST APIs, and React. Experience in legacy modernization, microservices, API performance optimization, database integration, and multi-stage business workflows. Familiar with Oracle, PostgreSQL, MongoDB, GitLab, Maven, Spring Batch, and CI/CD.

TECHNICAL SKILLS

Languages: Core Java, Java 8, JavaScript, TypeScript, HTML, CSS

Backend: Spring Boot, Spring MVC, Hibernate, JDBC, REST APIs, Microservices, Spring Batch

Frontend: React, React.js, Bootstrap

Databases & Storage: Oracle, PostgreSQL, MySQL, MongoDB, Document Management System (DMS) integration

Tools & Delivery: Maven, Git, GitLab, Apache Tomcat, CI/CD pipelines

PROFESSIONAL EXPERIENCE

Sellcraft Global Solutions | Java Developer — Aug 2024 – Present

• Contribute to modernization of legacy applications by developing Java Spring Boot services and React-based interfaces.

• Develop and enhance REST APIs, support database migration and integration, and deliver frontend improvements.

• Collaborate with multiple teams to troubleshoot integration issues and optimize application performance.

Membership Platform — Financial Services Transformation (Confidential Client)

Technology: Java, Spring Boot, Microservices, React, TypeScript, Oracle, Spring Batch, GitLab CI/CD, DMS

• Contributed to approximately 45–50% of the Membership module implementation in a multi-module microservices platform.

• Developed and enhanced 60+ REST APIs and optimized existing endpoints to improve response times and application performance.

• Worked on registration and membership services supporting a roughly 37-stage registration and approval workflow with document and information submission.

• Contributed to internal administration workflows and an external member portal, where members manage their records and submit requests for internal review and approval.

• Implemented bulk onboarding for client and constituent records using Spring Batch, supporting up to 2,000 records per file and concurrent uploads of multiple files.

• Integrated application workflows with Oracle databases and a Document Management System (DMS) for document upload and download.

• Collaborated with multiple teams and used GitLab and CI/CD pipelines within the application's delivery process.

U&B IT Consultancy Pvt. Ltd. | Java Developer — Jan 2024 – Jul 2024

• Analyzed requirements and investigated application defects.

• Debugged issues and collaborated with team members to improve code quality.

• Participated in code reviews and supported application maintenance.

Acks Solutions Pvt. Ltd. | Junior Software Engineer — Jan 2022 – Dec 2023

• Assisted with Java application development, troubleshooting, and debugging.

• Worked with senior developers and team members to deliver project requirements.

• Supported code-quality improvements and application maintenance.

SELECTED PROJECTS

Vendor Compliance System

Technology: Java, Spring Boot, React, PostgreSQL, MongoDB

• Supports vendor registration, policy assignment, compliance-document submission, and administrative review and approval.

• Uses PostgreSQL for application data and MongoDB for file/image storage.

Inventory Management System

Technology: Java 8, Spring, Spring Boot, Hibernate, Oracle, Apache Tomcat

• Internal application supporting wholesale software and hardware ordering workflows.

EDUCATION

• Bachelor of Engineering, University of Pune — June 2022

• Diploma in Computer Technology, MSBTE — 2019
